+6012-3462002

Email
amirah.ghazali1921@gmail.com

Address
Kajang, Selangor

EDUCATION

- Bachelor of Computer Science
and Maritime Informatics (Hons)
Universiti Malaysia Terengganu
2020-2024
CGPA of 3.65/4.00
github.com/amirah1921

SKILLS

- Java (Intermediate)
- React Native (Intermediate)
- MySQL (Intermediate)
- BootStrap (Intermediate)
- Swift (Intermediate)
- Ionic (Intermediate)

PERSONAL SKILLS

- Project Management
- Creative Thinking
- Organized and Motivated
- Analysis

LANGUAGE

- English
- Malay
- Chinese

PROFILE INFO

In the ever-evolving field of technology, the role of educators is crucial in shaping the next generation of software engineers. As a junior developer, the aspiration to become a part-time lecturer in software engineering is not only commendable but also beneficial for personal growth and the broader academic community.

FINAL YEAR PROJECT

Majlis Perwakilan Pelajar UMT Management System

- Developing a web application Final Year Project (FYP) using JAVA HTML, CSS, and JavaScript.
- Demonstrated hands-on experience in database administration and management through the use of PHPMyAdmin, ensuring seamless interaction with the MySQL database.

INTERNSHIPS

Software Engineering Intern | Databoost Sdn. Bhd. August 2023 – January 2024

ChatMy Development:

- Designing with the end user in mind, considering their needs, preferences, and behaviors.
- Conducting usability testing to identify and address any issues with the design.
- Developing an interactive model of the product to test and gather feedback.
- Elements should be consistent in design and behavior throughout the interface.

KawwinAi Development:

- Creating a basic skeletal structure of the interface to outline key elements and their placement.
- Identify React Native components that correspond to the design elements in your mockup.
- Ensure that the layout is responsive and functions correctly on different screen sizes.
